Mountains Weatherproof Sealant

Professional for cladding and curtain walls

General Information:

1	Brand Name	Mountains
2	Product Name	Neutral Silicone Sealant
3	Main Material	Silicone
4	Type	Single Component Acetic Silicone Sealant
5	Color	White, Black
6	Packaging	300ml plastic cartridge
7	Carton	24 cartridges
8	Appearance	Smooth paste without bubble or particles
9	Application	Installation of general construction and decorative materials
10	Certificate	ISO9001:2000, MSDS
11	Shelf life	12 Month
12	OEM/OEM	Available

OUR CERTIFICATE

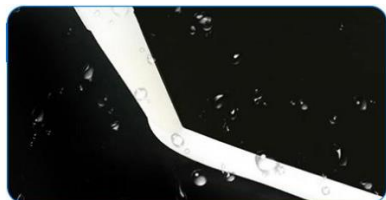

MOUNTAINS weatherproof neutral silicone sealant is a one-part, neutral and moisture cure, medium modulus silicone sealant that provides durable, pliable, watertight joints and offers outstanding adhesion without priming to most non-porous substrates.

With its unique weather-resistant formula, it possesses a balanced adhesive strength and very high recovery, making it ideal to withstand adverse weather conditions in common installations including moisture, movement, sheer, and de-flection, heat and cold resistant, aging resistant, UV resistant . It is easily gunnable in all weather conditions from -40 to 150 degrees F.

Excellent toughness
 Excellent tightness
 No shrinkage

300% Tensile strength
 Strong tensile and flexible
 No cracking

Smooth colloid
 Pure color
 Forming fast
 Without collapse

Perfect adhesion
 No breaking even bending 180°
